

# SIZING GUIDE GUITAR

Different types of guitars use different scale lengths. Fret Zealot currently offers products that fit 24.75" and up to 25.5" scale length guitars. This covers most standard full-size guitars, but there are some exceptions, so we recommend using this size chart to make sure you have the best fit.

## Instructions for size verification:

- Print on a full page of standard 8.5"x11" (A4) Printer paper. 100% Scale.
- Use a credit card/ hotel keycard or ruler to verify that the sizing chart is correct.

Notes: If your guitar has diagonal, microtonal, fanned, or multiscale frets, Fret Zealot cannot be used.

## Fret Zealot Models:

Guitar **24.75"** **25.5"**

## ACCURACY CHECK

To ensure correct printing size, place a credit card here. If it fits, the chart was printed correctly.

Most guitar brands prefer either exactly 24.75" or 25.5" scale lengths, but there are exceptions. We always recommend measuring to be 100% certain.

- 24" (610mm) Fender Jaguar, Fender Mustang
- 24.5" (622mm) PRS Santana Signature series
- **24.75" (628mm) most Gibson and Epiphone models**
- **25" (635mm) most PRS, Carvin, and Danelectric models**
- **25.5" (648mm) most Fender, Ibanez, Jackson, Kramer, Schecter, Squier, and Steinberger models**
- 26.5" (673.2mm) most 7 string models by Ibanez, Jackson & Schecter
- 27-30" (686 – 762mm) guitars in this range are called 'baritone' guitars. Also used by most 8 & 9 string guitars

25.5" Fret Zealot
